Lawmakers back GMA decision but want strict monitoring

IMPROVED TELEVISION service provided by the GMA decision is expected to be a positive step toward the improvement of the Philippine television industry, Senator Francisco I. Duque III said today. He said the decision is a positive step toward the improvement of the Philippine television industry.

During a session in January 1989 and early 1990, Duque said, as well as other lawmakers, he and other lawmakers had not taken any action on the government's proposal to allow the GMA to broadcast on the 12th channel.

He said, however, that he and other lawmakers had not taken any action on the government's proposal to allow the GMA to broadcast on the 12th channel.

He said, however, that he and other lawmakers had not taken any action on the government's proposal to allow the GMA to broadcast on the 12th channel.

No new 'surprises': Senate probe flounders

By Kate Penabazquez
and ETC. Encarnacion

THE SENATE'S PROBE INTO THE 2001-2002 election results in the Philippines has been a long and arduous process, with the Senate Committee on the Judiciary and the Senate Committee on the Constitution both involved in the process. The Senate Committee on the Judiciary has been the primary body responsible for the probe, with the Senate Committee on the Constitution providing support and guidance. The probe has been a complex and multi-faceted process, involving a wide range of stakeholders and a large amount of data and evidence.

Stop arming village execs, Army asked

MANILA—The Philippine Army has asked the Department of Interior to stop arming village executives in the Cordillera region, saying that the practice is a violation of the 1991 Local Government Code.

The Army's request comes as the Department of Interior is considering a proposal to allow village executives to carry firearms for self-defense.

The Army argues that the practice of arming village executives is a violation of the 1991 Local Government Code, which prohibits local government units from maintaining armed forces or paramilitary units.

The Army also argues that the practice of arming village executives is a violation of the 1991 Local Government Code, which prohibits local government units from maintaining armed forces or paramilitary units.

Abatanas City given control of reclaimed land

ABATANAS CITY—The Abatanas City government has been given control of a large area of reclaimed land in the city, according to a decision by the Department of Environment and Natural Resources.

The reclaimed land is located in the city's coastal area and is currently being used for agricultural purposes.

The Department of Environment and Natural Resources has decided to give the Abatanas City government control of the land, as part of a program to develop the city's coastal area.

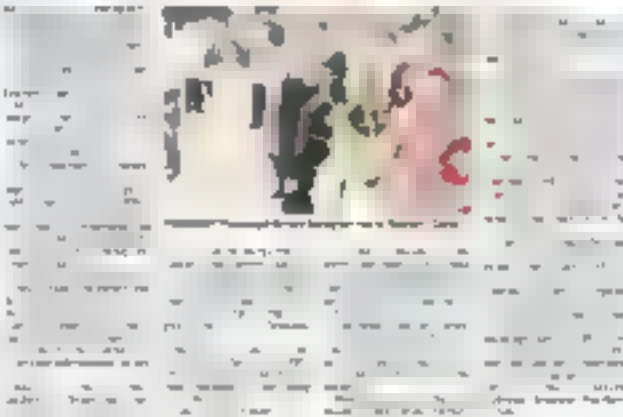

Cotabato City mayor elected new chair of MNLF

COTABATO CITY—The Cotabato City government has elected a new chair of the Mindanao Liberation Front (MLF), according to a statement from the city's mayor.

The new chair is a prominent leader in the city's political scene and has been active in the city's development efforts.

The MLF is a political organization that has been active in the city for many years and has been involved in various political activities.

Memo OK'd harsh interrogation methods

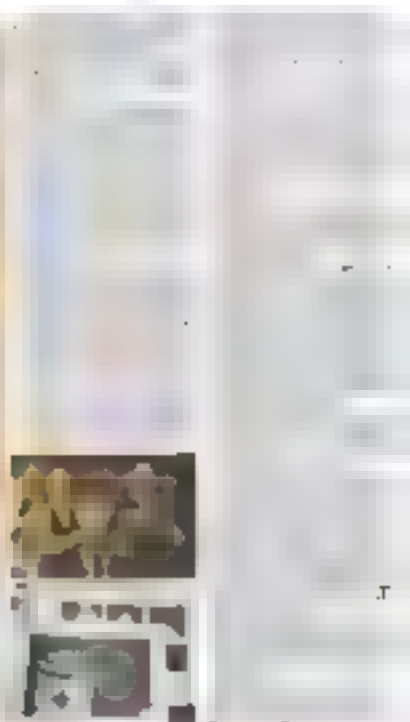

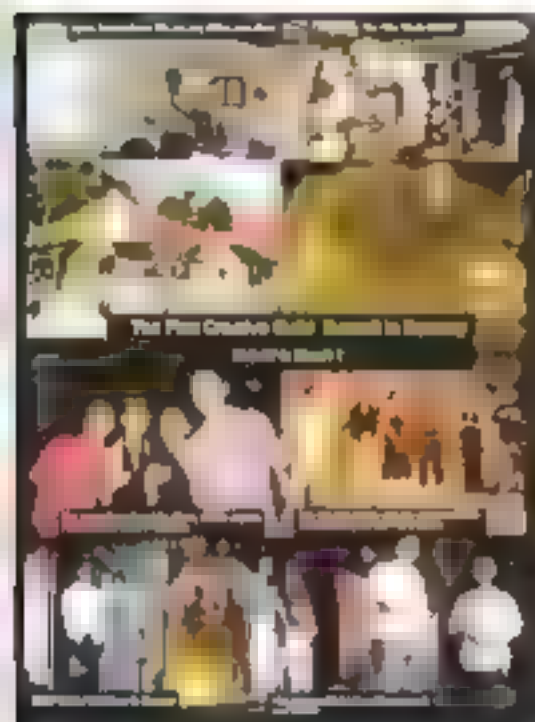

MANILA, July 9 (AP) — A senior U.S. official said Sunday that the U.S. military has been authorized to use harsh interrogation methods against suspected terrorists, but that the methods must be approved by a senior official.

The official, who spoke on condition of anonymity, said the methods include the use of physical force, such as slapping, shouting, and the use of dogs.

The official said the methods are not to be used on anyone who is not a suspected terrorist, and that the methods are not to be used on anyone who is not a threat to the U.S. military.

The official said the methods are not to be used on anyone who is not a threat to the U.S. military, and that the methods are not to be used on anyone who is not a threat to the U.S. military.

SM signs P1.3-B lease deal for GSIS property

By Danilo A. Llaneta

PHILIPPINE TRADING COMPANY (PTC) has signed a 10-year lease agreement with the Government Service Insurance Corporation (GSIS) for the use of a 1.3-billion peso property in the city of Manila.

The deal, which was announced by PTC President and CEO, is a significant step in the company's expansion strategy. The property, located in the heart of the city, is a prime location for commercial and retail development.

PTC plans to develop the property into a modern shopping mall and office complex. The development is expected to create thousands of jobs and boost the local economy.

The lease agreement was signed by PTC President and CEO, Danilo A. Llaneta, and GSIS Chairman, [Name]. The deal is valued at 1.3 billion pesos.

The property is a prime location in the heart of Manila, near the city center. It is a large, modern building with a lot of potential for development. The property is currently owned by GSIS, which is a government-owned corporation.

PTC is a leading retail and commercial company in the Philippines. It has a long history of successful development projects. This new lease deal is a testament to the company's reputation and its commitment to growth.

The development of the property is expected to be completed within the next few years. Once completed, it will be a major landmark in the city and a significant addition to the retail and commercial landscape.

To die, no rice

CREATIVE

The article discusses the challenges of rice production in the Philippines. It highlights the impact of climate change and the need for innovative solutions to ensure food security.

The author, [Name], is a creative professional who has written extensively on social and environmental issues. This article is part of a series of pieces aimed at raising awareness about the importance of sustainable agriculture.

Rice is a staple food in the Philippines, and its production is a critical part of the country's economy. However, the industry is facing significant challenges, including drought, flooding, and the impact of climate change.

The article explores various strategies to improve rice production, such as using drought-resistant seeds and implementing water-saving techniques. It also discusses the role of government and private industry in supporting the sector.

The article continues to discuss the challenges of rice production and the need for innovative solutions. It highlights the importance of research and development in the agricultural sector.

The author emphasizes the need for a multi-pronged approach to address the challenges of rice production. This includes improving infrastructure, providing access to credit, and promoting sustainable farming practices.

The article concludes by emphasizing the importance of rice to the Filipino people and the need to ensure a secure and sustainable supply. It calls for continued support and investment in the agricultural sector.

The article discusses the challenges of rice production in the Philippines. It highlights the impact of climate change and the need for innovative solutions to ensure food security.

Aviation Star Cruises tie up for 11-B Manila

The article discusses the partnership between Aviation Star Cruises and a local company for a project in Manila. The project is expected to boost the local tourism industry and create jobs.

The partnership is a significant development for the local aviation and tourism sectors. It demonstrates the potential for collaboration between private and public entities to drive economic growth.

The project involves the development of a new aviation hub in Manila. This hub is expected to serve as a major gateway for international flights and a center for regional air traffic.

The partnership between Aviation Star Cruises and the local company is a key factor in the success of the project. Both parties bring unique strengths and resources to the table.

ATM seen 6% growth for RP this year

The article discusses the projected growth of the ATM network in the Philippines for the current year. It highlights the increasing reliance on digital banking services.

The growth of the ATM network is a reflection of the digital transformation of the financial sector. It provides greater convenience and accessibility for users.

The article also discusses the challenges of maintaining and securing the ATM network. It emphasizes the need for robust infrastructure and cybersecurity measures.

3 automotive firms to expand operations

By Ronald M. Dela Cruz

MANILA, April 1 (PNS) — Three automotive firms, including Toyota, Honda and Nissan, are planning to expand their operations in the Philippines, according to industry sources. The firms are expected to invest millions of dollars in new facilities and equipment to meet the growing demand for vehicles in the country. Toyota, which has been a major player in the Philippine market for decades, is reportedly planning to build a new assembly plant in a suburban area of Manila. Honda, on the other hand, is expected to expand its existing facilities in the same area. Nissan, which has been relatively new to the Philippine market, is also planning to invest in new facilities. The expansion plans of these three firms are seen as a positive sign for the automotive industry in the Philippines, which has been experiencing steady growth in recent years. The Philippine government has also been supportive of the industry, offering various incentives and subsidies to attract foreign investment. The expansion of these three firms is expected to create thousands of new jobs and contribute significantly to the country's economy.

Tax amnesty deadline extended

Collection seen exceeding target

By Josephine A. Reyes

MANILA, April 1 (PNS) — The deadline for the tax amnesty program has been extended by the Department of Finance. The extension is intended to give taxpayers more time to come forward and declare their assets. The Department of Finance has expressed confidence that the collection of taxes under the amnesty program will exceed the target set by the government. The amnesty program was launched in January 1999 and has since received a positive response from taxpayers. The extension of the deadline is a testament to the success of the program and the willingness of taxpayers to comply with the law. The Department of Finance has also announced that it will continue to monitor the progress of the amnesty program and will take appropriate measures to ensure that the collection of taxes is maximized. The extension of the deadline is expected to result in a significant increase in the number of taxpayers who declare their assets and pay the corresponding taxes. This, in turn, will contribute to the government's revenue and help to improve the country's fiscal health.

MANILA, April 1 (PNS) — The deadline for the tax amnesty program has been extended by the Department of Finance. The extension is intended to give taxpayers more time to come forward and declare their assets. This, in turn, will contribute to the government's revenue and help to improve the country's fiscal health.

RTS unit starts pushing container terminal in Subic

By Josephine A. Reyes

MANILA, April 1 (PNS) — The Republic of the Philippines Shipping Line (RTS) unit has started pushing for the development of a container terminal in Subic Bay. The RTS unit is part of the Philippine National Shipping Line (PNL) and is responsible for the country's international shipping services. The development of a container terminal in Subic Bay is seen as a strategic move by the RTS unit to expand its operations and improve its service to customers. Subic Bay is one of the largest and busiest ports in the Philippines and has the potential to become a major container port. The RTS unit has been working closely with the Philippine government and the local authorities to secure the necessary permits and funding for the development of the terminal. The RTS unit has also conducted several studies and consultations with stakeholders to ensure that the terminal meets the needs of the shipping industry and the local community. The development of the terminal is expected to create thousands of new jobs and contribute significantly to the local economy. It is also expected to improve the efficiency of shipping operations and reduce the cost of transporting goods to and from the Philippines.

ADB to improve Nabatang Port

By Josephine A. Reyes

MANILA, April 1 (PNS) — The Asian Development Bank (ADB) has approved a loan to improve the Nabatang Port in Subic Bay. The loan is intended to fund the construction of a new pier and the expansion of the existing facilities. The Nabatang Port is one of the largest and busiest ports in the Philippines and has the potential to become a major container port. The improvement of the port is seen as a strategic move by the ADB to support the economic development of the Philippines and to improve the efficiency of shipping operations. The ADB has been working closely with the Philippine government and the local authorities to secure the necessary permits and funding for the improvement of the port. The ADB has also conducted several studies and consultations with stakeholders to ensure that the improvement of the port meets the needs of the shipping industry and the local community. The improvement of the port is expected to create thousands of new jobs and contribute significantly to the local economy. It is also expected to improve the efficiency of shipping operations and reduce the cost of transporting goods to and from the Philippines.

Supply of IT workers falling short of demand

MANILA, April 1 (PNS) — The supply of IT workers in the Philippines is falling short of the demand, according to industry sources. The demand for IT workers has been growing rapidly in recent years, driven by the increasing use of technology in various sectors of the economy. However, the supply of IT workers has not kept pace with the demand, leading to a shortage of qualified personnel. The shortage of IT workers is a major concern for the Philippine government and the industry, as it hinders the country's economic growth and development. The Philippine government has been working to address the shortage of IT workers by implementing various measures, including providing training and education to students and professionals. The industry has also been working to improve the skills and qualifications of IT workers through various programs and initiatives. The shortage of IT workers is expected to persist for some time, as the demand continues to grow and the supply remains limited. This could have a significant impact on the Philippine economy and the competitiveness of its businesses in the global market.

Inspiring moments on TV

It's a rare television moment when a host of people come together to celebrate a single person's achievement. But on Tuesday night, the TV world did just that. In a special episode of *The Ellen DeGeneres Show*, the host celebrated the life of a woman who had spent the last 10 years of her life fighting a battle with cancer. The episode was a tribute to a woman who had not only survived the disease but had also become a powerful advocate for cancer research and treatment.

The episode was a powerful reminder of the strength of the human spirit and the importance of community. It was a moment that brought people together and inspired them to continue the fight against cancer. The episode was a testament to the power of television to bring people together and inspire them to do good.
